Summary

I am a backend developer with experience in building websites and web applications. I specialize in Python and have professional experience working with Django. I also have experience working with Javascript, HTML, CSS, Sass, bootstrap, and fewer experiences with React.

Experience

Trainee at Information Technology Institute (ITI)

Information Technology Institute (ITI)

Aug 2021 - Sep 2021 (2 months)

- Advanced my experience in front-end web development.
- Built websites with JavaScript, HTML, CSS, Sass, and bootstrap.
- Built a responsive medical website as a graduation project.

Trainee at Egyptian Space Agency

EgSA-Egyptian Space Agency

Jul 2021 - Sep 2021 (3 months)

Project Name: The satellites swarm system.

Description of project: The satellites swarm system (SSS) is a system that consists of a network of satellites orbiting in space that communicate with each other in space through antennas mounted on the satellite and are controlled by a group of ground stations.

It was my first time to work with embedded systems like arduino and gain more experience.

My role in the team: - I was responsible for some functions of the project, built a simple UI, and integrating code.

Education

Faculty of Computer and Information Suez University

Bachelor's degree , Computer Science

2018 - 2022

Licenses & Certifications

Programming for Everybody (Getting Started with Python) - Coursera

TKM7UT45EVS

Python Data Structures - Coursera
